The increased crowds in attendance at conference had their effect at the showhouses last night. The theatre had a large audience, and the Grandwas jammed. The Cotton King went with much greater smoothness than before, the main improvement being in the distinctness with which the characters played and the rapidity of action. There was hearty appreciation for the efforts of the young people, and without doubt their closing performance tonight will draw another good house.

There was an old-time confer crush when the opera sale began at the theatre yesterday morning, though the greatest part of the demand came from city patrons.
